Advance Report on

F O O D S T O F E A T U R E *

These foods are expected to be in plentiful supply in three and six months. This report is not a forecast or appraisal of supply conditions, but lists a limited number of foods which should be in generous volume if the historical pattern of seasonal production is followed.

The foods selected, depending largely on the outcome of the crops, will probably be included in the monthly List of Plentiful Foods issued by the Production and Marketing Administration. These foods are stressed through nationwide informational activities and through food trade merchandising.

You may want to consider these particular foods as features for food columns, food advertisements, and food merchandising in the months designated.

Foods for July 1951

Broilers and Fryers
Hens
Cantaloups
Fresh Corn
Plums
Watermelons

Foods for October 1951

Cabbage
Grapes
Sweetpotatoes
Pears
Onions
Broilers and Fryers
Hens

(*) Note: In connection with the Plentiful Foods Program, to increase the consumption of abundant foods through normal channels of trade.
